

OUR MARKETS

MOBILE HYDRAULICS

AKG Thermal Systems' rugged and efficient cooler designs protect and extend the life of your mobile hydraulics system.

ENGINE COOLING

AKG "AEL" pre-engineered cooling packages will simplify and reduce development time.

INDUSTRIAL HYDRAULICS

From gear boxes to power units, AKG has the coolers to optimize your application.

COMPRESSED AIR

For new installations or updates to existing systems, AKG has the ideal cooling solution for you.

OUR PRODUCTS

D/DCS Series

- Brazed Aluminum
- 12/24 Volt DC brushless designs
- internal check valve available

HR Series

- Brazed Aluminum
- Hydraulic fan drives
- internal check valve available

AEL Series

- Brazed Aluminum
- 100-800 hp applications
- Hydraulic or Engine fan drive

C Series

- Brazed Aluminum
- Rugged and efficient
- Low fouling fin design

HD/HDZ Series

- Brazed Aluminum
- Extreme Duty
- High HP and high oil flow

AR Series

- Brazed Aluminum
- AC electric fan drives
- Internal check valve available

BRAZED PLATE

- Copper brazed and gasketed types
- Stainless and titanium plate options
- Temperature and flow controls

CC/AOC SERIES

- Brazed aluminum after-coolers
- AC electric or pneumatic fan drives
- Oil cooler/after-cooler combination units
- Belt guard options
